Children's Dental Health Education Resources
Use these resources to help promote good oral health all year long!

Interactive Media

Elementary School

MouthPower includes six modules focusing on different aspects of oral health and dentistry. In each one, a character named Mouthie serves as a guide and, in some cases, as a test subject, to help children explore and learn about oral health.

The program was developed by the Samuel D. Harris National Museum of Dentistry in Baltimore, Maryland and the American Dental Association. (Available in English and Spanish).

Beginner Dental Jeopardy! mimics the popular TV game. Five categories cover the basics of oral hygiene and cavities, oral health and nutrition, mouth safety and content from MouthPower, the online program developed by National Museum of Dentistry.

Also available:
Beginner (Elementary school) &
Advanced (Grades 6-12)
Dental Jeopardy Game cards!
Perfect for low tech or small group situations.

Middle/High School

Your Spitting Image is an innovative and interactive program highlights the convergence of genetics and dentistry with hands-on experiments and interactive computer activities. Step into the role of a forensic investigator to solve mysteries, see what your saliva says about you, and find out how scientists are using bioengineering to grow teeth. The DOWNLOADABLE TEACHER'S GUIDE includes activities that meet National Science Education Standards for grades 6-12.
